

LOS CUATRO TEZCATLIPOCAS

QUETZALCOATL ~ PRECIOUS AND BEAUTIFUL KNOWLEDGE

Gaining perspective on events and experiences that our ancestors endured, learning of the beautiful contributions our people have made for us, allows us to become more fully realized human beings. We must listen to ourselves, each other and our elders with humility and *love* in order to hear the indigenous wisdom in our hearts.

TEZCATLIPOCA ~ CRITICAL REFLECTION

Through silencing the distractions and overcoming the obstacles in our lives, we are able to become revolutionaries for social justice.

XIPE TOTEC ~ FORGIVENESS, TRANSFORMATION

The source of strength that allows us to transform and renew exists in each of us. We must have the strength to release what holds us back, accept and embrace consciousness in order to become the change we wish to see in the world.

HUITZILOPOCHTLI – OUR WILL, POSITIVE ACTION

As we grow in consciousness, we must be willing to act with a revolutionary spirit, love and respect.
